

Learning Management System

Culture, Connections, and Compliance

Mobile & *Digital* Training

Employees experience engaging video content and compliance training whether onsite, online, or on their mobile device, to build genuine human connections and a culture of inclusivity and respect.

HR Proactive helps you create a learning culture that puts people first, encourages growth and the ability to manage change. Our robust Learning Management System (LMS) houses your company's Human Resources and Health & Safety training and policies in one place. The back-end database is set up via the video and quizzes to track the progress of employees. Simplify the process of managing your company's policies with live signature sign-off and training with tracking and reporting features.

LMS Platform for "People First" Compliance Training

HR Proactive's Learning Management System (LMS) with compliance training courses offers the following benefits:
